Joyous Victory Day Festivities Held In Pass Towns

Parade Longest And Best In Pass History; Many Beautiful Floats Entered; Fireworks And Dance Enjoyed

Subdued excitement raced through town between seven and eight o'clock Monday morning as radios flashed the news of Germany's unconditional surrender to the Allies. The flash that all had waited so long to hear was finally being spoken. However, due to the fact that the governments of the three big powers had not given the official announcement some misunderstanding developed among some citizens. As it turned out the war did not officially come to an end until 4 p.m. Tuesday.

Despite the uncertainty of what the official celebration program might be, however, the local storekeepers and citizens got out their flags and bunting and soon main street and the residential sections took on a gala scene. Main street really went to town as one streamer after another were stretched across the street. At noon the electricians were busy installing eight strings of lights at various points on main street. Flags were prominently displayed in all windows and those that were a little slow at decorating soon had a visit from George Derbyshire.

At 10 o'clock a queue had lined up in front of the liquor vendor store. It never appeared to diminish in number despite the fact that many were to be seen with their refreshments under their arm.

Small groups of men and women were to be seen standing and talking about the historic news and voicing their guesses when Prime Minister Churchill would talk to the world and give the news his official O.K.

The VE Celebration committee hurried had posters printed calling all committees to report at a meeting to be held that evening at 7 p.m. Mayor Frank Abousayyaf then proclaimed Wednesday a civic holiday, posters to this effect being distributed throughout town.

At 7 p.m. a large attendance was seated at the VE committee meeting when all chairmen reported on their activities. Blairmore was represented and an understanding reached as to what was to be done in the Pass-wide parade on Wednesday at 1 p.m.

About 9 o'clock Monday evening the brass band arrived from Bellevue and played a few selections in front of the Victory Loan office on Main street, a goodly crowd appearing as if by magic. Soon the theatre crowd came out and the crowd swelled to overflowing across main street, halting traffic. The band was prevailed upon to play more tunes, part of main street was blocked off by cars and dancing started in the middle of the street. This lasted for about fifteen minutes, till dancers and bandmen alike became chilled from the cool east wind which had prevailed all day, and the gathering broke up.

Tuesday morning came with the ever-present cold east wind still blowing. Quietness prevailed throughout town during the morning. Large crowds attended the Catholic church services. In the early afternoon it was decided by the clergy to hold the scheduled religious services in the Community hall rather than in the Central school grounds as called for in the original plans. This was made necessary due to the cold weather. Possibly the public was not fully aware of the time schedule for the services, as only a small crowd attended.

Church Service

Hearts were lifted up in prayer and thanksgiving as people met in the Community hall on Tuesday afternoon for the VE-Day service sponsored by the Ministerial Association of Coleman.

There was joyful realization amongst the audience of answered prayers for victory and safety of their loved ones; yet many thanked God for the freedom for which their

loved ones gave their lives.

The service was led on by Rev. Brown, of the Anglican church, assisted by Rev. Kettys of the United church, and Captain T. Smith, of The Salvation Army. A mixed choir assisted in the singing under the leadership of Mr. Cousins, with Donald Graham at the piano.

As Captain Smith brought the address to the listening people he reminded them that only because God was on the Allied side that VE-Day was realized, reminding them of the miracles of God at various times during the history of World War II.

If peace is to be maintained it must be sought on bended knee before God and as a people in a Christian land it is up to each individual to "Seek first the Kingdom of God and His righteousness and all other things shall be added unto us."

As the message was brought to a close an urge was made for parents to rebuild their family altars and have the word of God as their foundation for life.

The service was brought to a close with the singing of a hymn, then the National Anthem. Benediction was pronounced by Rev. Mr. Brown.

Wednesday morning, the really big day, broke with cloudy sky. However, the chill wind was gone and as the morning progressed the cloud formations broke up and finally ended up in brilliant warm sunshine as the parade started at 1 p.m.

The streets became jammed with cars and pedestrians. The parade gathered in West Coleman and accompanied by two brass bands and a pipe band slowly wended its way through the main street. Some exceptionally beautiful floats were in the parade. Some must have taken days to decorate. One Coleman float was trimmed with artificial flowers and drew the admiration of all.

Organizations having floats were Canadian Legion, Ladies Auxiliary Canadian Legion, Coleman Lions, Coleman Elks, Coleman Slovaks, Coleman Polish Society, The Motordrome Garage, Toppiano's Grocery, Bobbit's Grocery, Coleman CGIT, Coleman Czechoslovaks, Harry Boulton with a Forestry truck, Russian-Canadian Federation, IODE, Blairmore Elks, The Belgians, a Jeep, Blairmore fire brigade, a large forest truck, United Nations, "Peace" truck, "In Memoriam" truck, Home Front, Bellevue Lions, Nations of the world (entered by Hillcrest) and Future Canadians.

Old timers standing along the street voiced the opinion that it was the best and longest parade ever to be staged in the Pass and they were looking back on 1918 when the celebrations for the last war took place.

In Coleman Mayor Frank Abousayyaf, Rev. G. A. Kettys and Rev. W. E. Brown gave brief addresses, while Capt. Smith, of The Salvation Army, led in prayer. The speakers spoke of the sacrifice of Canadian soldiers in helping win the peace and of the Canadians on the home front who had backed their soldiers to the limit.

The parade then wended its way to Blairmore, Frank, Bellevue and Hillcrest, where it arrived right on schedule.

Citizens returning to Coleman then gathered at 7:30 at the ball field where the daylight fireworks were shot off. Many hundreds were gathered at the field and saw fireworks explode high in the air unfurling flag of the United Nations attached to a parachute which sailed almost a mile in the sky before falling to earth. The surrounding hills appeared like ant hills as scores of children and youths swarmed after the descending flags.

Following the close of the fireworks the huge bonfire was set ablaze. As it was not quite dark, however, the bonfire lost some of

ORGANIZATIONS! YOUR ATTENTION, PLEASE!

Last fall circular letters were sent to practically all local organizations asking for donations toward VE-Day celebrations. Some came forward with donations while others intimated that donations would be forthcoming when Victory Day arrived. That day has now come and gone. In order that accounts can be paid as quickly as possible will all those organizations planning on giving a donation please do so now.

Cheques should be made payable to the VE-Day Celebration Committee and mailed to A. Balloch, finance chairman.

Carl Anderson Critically Injured In Collision

Suffered Fractured Skull When His Car and Burnham Truck Collided at Bluff on East Main Street.

Carl Anderson, Coleman citizen, lies seriously injured in the local hospital with a fractured skull and other injuries suffered on Monday afternoon when his Ford car collided with a truck owned by R. Burnham and driven by Tom Wilkins, of Blairmore.

The accident occurred at approximately 4:15 p.m. at the bluff east of main street. According to the police report Mr. Anderson failed to take the curve, the car going to the wrong side of the road where it smashed into the truck. Severe damage was done to the car and Mr. Anderson received serious injury. Mrs. Anderson, who was with her husband, received facial lacerations.

When garage attendants came to remove the two vehicles they found that the impact was so great that both cars were joined together and force had to be used to separate them.

Mr. Anderson was unconscious when taken from the car, but gained consciousness the following morning.

This was the only serious accident to happen in the Pass following the news that the European war was over.

COUPON CALENDAR

May 10: Butter coupon 106.

May 17: Butter coupon 107.

Sugar coupons 58 and 59.

Preserves coupons 47 to 56.

(These include 8 extra for sugar for canning.)

its appeal and was to be seen blazing hours later practically unnoticed by the citizens at large.

About 9 p.m. the main street was blocked off and dancers were given band music followed by canned music to dance to until the wee hours of the morning. From 8 to 11 p.m. the streets were literally choked with pedestrians who wanted to watch or take part in the dancing.

Thursday morning town workers were busy taking down the street decorations. All equipment purchased by the VE-Day committee will be given to the town for future use.

THANK YOU

The Editor, Coleman, May 10.

The Coleman Journal.

Dear Sir: May I express through your columns the sincere thanks of the Entertainment Committee to those loyal helpers, though not officially members of the committee, who volunteered their assistance in the serving of the refreshments on VE-Day. These included Madam M. Corne and R. Loiselle, Miss Yuill, Miss Dunlop and Miss Godfrey, of the school staff, and E. R. Kennedy. Particular thanks also to Mr. Ray Steurbaut and Mr. Harry Drew, the eminent chefs, to whose untiring efforts the success of the undertaking was largely due; also to many others who helped in various ways as opportunity offered.

Yours truly,
Maurice W. Cooke.

CONVOCATION EXERCISES

Mr. and Mrs. Lewis Jones will leave on Saturday morning for Edmonton where they will attend the convocation exercises at which their son, Owen James Jones, will receive his degree of BSc in civil engineering from the University of Alberta.

Owen has studied four years at university plus a year at normal school. He is at present a cadet at Saseen military camp, Calgary.

Congratulations are also extended to Mr. Jim Cousins, of the local high school staff, who will receive his BA degree at the same convocation exercises as Mr. Jones. Mr. Cousins will leave for the northern city this week end. He has attended summer school at Edmonton during the summer holidays for a number of years and his perseverance and study has culminated in his winning his BA degree.

Cpl. Roach Cousins who is expected home this (Friday) evening.

Physical Training Group Sponsored "Scavenger Hunt"

(By H. Dibble)

On Monday night, April 30, citizens about town watched with curiosity as a variety of unusual objects were tugged, pushed and coaxed along main street and hastily deposited in the Community hall — dressmakers' forms to fried eggs and hay, not to mention a stray cat or two which seemed reluctant to join in the fun.

If you were one of the bewildered citizens who was asked over the phone, "Have you a moustache cut?" or if you were greeted at the door with, "Have you by any chance a January fourth issue of The Coleman Journal?" you know what the fun was about.

Those who took part in the quest were members of the Youth Training group, who marked the end of a most successful season with a scavenger hunt followed by a fish-and-chip party in the Community hall.

In the course of the evening, the group presented to Mrs. Seaman a small gift in recognition of her splendid leadership throughout the season.

Highlight of the evening was the reading of a verse, one of the treasures demanded on the scavenger hunt. It was composed in a matter of minutes by a local citizen who, though too modest to claim authorship, deserves special mention for the following witty, but not too flattering poem:

Oh to be in England now that spring is here,

But better still in Coleman where the ground is not so bare;

And Seaman's class of PT girls the hills are prone to romp, As in the winter, in the hall, they stomp and stomp and stomp!

A desperate effort so 'tis said, their curves to slim and slender,

While Isobel with vicious eye commands "You better bender!"

This same pert lass their diet watches,

She strictly bans all cakes and starches

And recommends such things as jellies.

As being good for protruding — double chins.

Approximately 1800 Citizens To Attend Tuberculosis Mobile X-Ray Clinic; Thursday Was Busy Day

Miners Unable to Come When First Scheduled Should Record Time When They Can Come With Clinic Secretary in the Community Hall.

Miners are now registering their names so that it is quite possible that 1,900 persons may attend the clinic.

Clinic personnel are Miss Mildred F. O'Neill, RN, Ed. Holberg and Arthur Ayres. Mrs. Joe Spivak jr and Miss Josephine Mizera are assisting.

It is planned to have the clinic remain here for a week in order that all who have registered may be X-rayed.

Some scheduled for Thursday morning failed to appear at the clinic. Please adhere to your time schedule as it disrupts the clinic's entire schedule. If the husband is unable to keep his scheduled appointment the wife should do her best to keep the appointment and tell the secretary which time would be most convenient for her husband.

Blairmore and Bellevue are busy organizing for the visit of the clinic. They are adopting the same system as Coleman, using high school students to do the house-to-house canvass.

Fish And Game Association Organized

Percy Knowles and Jim Kerr Appointed President and Secretary respectively; Large Attendance.

On Friday evening approximately forty fish and game enthusiasts attended the organization meeting of Coleman Fish and Game Association.

Percy Knowles, sponsor of the meeting, was chosen temporary chairman, and Jim Kerr temporary secretary.

Letters were read from Mr. Sparrow, secretary of the Alberta Fish and Game Association, in which he urged the organization of a fish and game association in Coleman.

It was unanimously agreed that the old Coleman Fish and Game Association be reorganized. Officers elected were:

President: Percy Knowles.
Sec-Treasurer: Jim Kerr.

Game Committee: Leslie McDonald (chairman), D. DeKley, Henry Tibergien, J. Kerr.

Fish Committee: Joe Jenkins (chairman), B. Gentile, J. Kinnear, S. J. Kerr.

Predatory Committee: Mike Kubica (chairman), J. Zur, H. Tibergien.

It was agreed to affiliate with the Alberta Fish and Game Association, the membership fee 25c per club member.

Season's fee was set at \$1.00. \$36 in fees were collected during the meeting. It was agreed that a membership drive be started to obtain as many members as possible.

A \$10 gift was received from one of the members to start the organization.

Forest Ranger Harry Boulton spoke to the newly created organization and prevailed upon the members to realize the responsibility which now rested on their shoulders in the protection of fish and game in this area. He asked them to enforce all fish and game laws and to play ball with the association.

A lengthy discussion took place on whether or not big game roamed the local forests in sufficient quantity, sheep being mentioned specifically.

Membership cards will be printed shortly and mailed to the members. Membership can be obtained by contacting Jim Kerr at The Motordrome garage.

— V —

Your Canada needs millions, what is your share? Buy Victory Bonds.

Hope To Reach \$150,000 By End Of Week

\$144,000 Subscribed up Till This Morning; Citizens Urged to Say "Thanks With a Bond."

Unit organizer Frank Abousayyaf announced that \$144,000 had been subscribed locally in the Eighth Victory Loan up till Thursday evening. This is only \$6,000 short of Coleman's second objective of \$150,000.

The Victory festivities during the week cut deeply into the daily average, but this was to be expected and canvassers are once again on the job with the expectations that some who have already purchased will voice their thanks for Victory with a second bond.

The drive comes to an official close on Saturday evening and those not yet canvassed are asked to subscribe for a bond at the Victory Loan office on main street from 7 to 10 p.m. or contact either Frank Abousayyaf or W. Dutil at their respective stores on main street where their subscription will be attended to. The bank will remain open on Saturday afternoon from 2 to 4 to take care of last-minute subscriptions.

REG. JONES' BROTHER RELEASED FROM PRISONER OF WAR CAMP

Last week Reg. Jones, of Hillcrest-Mohawk, received the good news from his parents in England that his brother, Pte. Ronald Jones, five years a prisoner of war, was now safely in England.

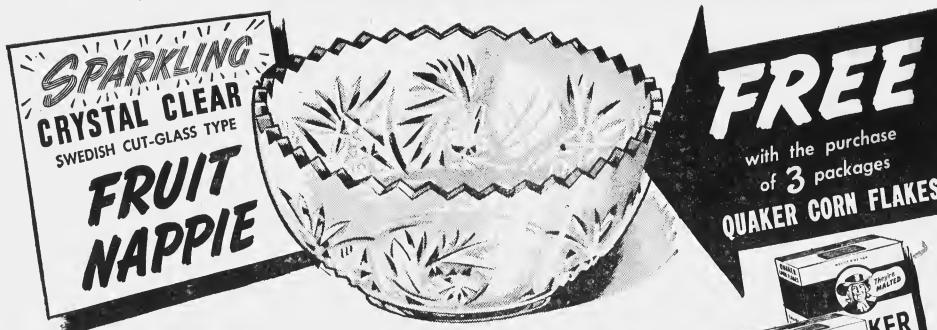

Ronald was taken prisoner at Dunkirk and was one of the prisoners at Stalag 7B. This camp was one of many which was overrun by the Allied sweep across Germany.

Education For Peace

EVENTS OF THE PAST THIRTY YEARS have taught us much about war and peace. In that time we have participated in two world wars and have witnessed twenty years of uneasy peace. We are now nearing another era of peace and there is profound hope among the people of the victorious nations that it will not be uneasy and that it will be more enduring than the last one. It is now realized that there cannot be any hope for permanent world peace unless we are prepared to put into it as much energy and interest as we have given to the prosecution of the war. Let us, on the part of people and of nations made it possible for the Axis powers to build up sufficient armed might to seriously threaten the whole world, and there is no doubt but that they are prepared to do it again in the future, if we do not remain constantly vigilant.

Approaches To Task Are Many foundations for an enduring peace are being made through many channels. World trade conditions, social and economic problems, international boundaries and countless other matters are involved in the consideration of possible causes of future wars. Among those who have joined in the effort to plan for a wise and lasting peace are educationists here and in other democratic countries. From them have come strong recommendations that a permanent international office for education be included as part of the world peace machinery. We have seen what was accomplished in Germany by indicating the youth of that country with Nazi ideas. The great value of an educational program, designed to make our young people aware of the principles of democracy and of the forces which threaten democratic institutions, should not be overlooked at this time.

Educational leaders in Canada have joined with those of Great Britain and the United States in pointing out the importance of education as one means of safeguarding the peace. Dr. E. F. Willoughby, of Winnipeg, President of the Canadian Teachers' Federation, stated recently that "if the people of Canada do not succeed in building a new, intelligent, informed, loyal citizenship we shall lose the war, even though our soldiers march in triumph through the streets of Berlin." He further suggested that Canadian schools should be deliberately designed to provide education "in and for democracy" as a means of preserving our way of life. Such a program would place a great responsibility on those engaged in educational work, but it would also give them an opportunity to have a part in the building of an enduring peace.

GEMS OF THOUGHT

WAITING

There are many times and circumstances in life when "Our strength is, to sit still." Tryon Edwards.

He that takes time to think and consider will act more wisely than he that acts hastily and on impulse. —C. Simmons.

The mightiest powers by deepest calm are fed. B. W. Procter.

Since the world was, men have not heard with the ear, neither hath the eye seen, what God hath prepared for them that wait upon Him and work righteousness. — Mary Baker Eddy.

Patience does not mean indifference. We may work and trust and wait, but we ought not to be idle or careless while waiting. — Gail Hamilton.

Beautiful is the activity that works for good, and the stillness that waits for good; blessed the self sacrifice of the one and the self forgetfulness of the other. — R. Collier.

The average human body is covered with about 20 square feet of skin.

SLOAN'S LINIMENT FOR FASTER RELIEF

Planting Potatoes

The Proper Way To Cut Potatoes For Seed

What is the best way to cut potatoes when it comes time to plant them? They should not be cut into too many pieces, nor planted in too large chunks.

The proper way to cut potatoes for seed is to divide them into blocks seed pieces weighing from an ounce and a half to two ounces each and with each piece containing two eyes. The tuber's seed end, which contains the most eyes, should be split.

The number of seed pieces which should be cut from any potato depends on its variety and on its size.

For example, a six to eight ounce tuber should make four seed pieces. A five ounce tuber can be cut into three pieces: two from the seed end and the other, the stem end of the tuber.

Captain Can't Float

Telephone Operator Had To Have An Explanation

The switchboard operator at the Prince Rupert Drydock one day received the following telephone call from the captain of a ship: "Will you please tell Mr. Halcrow I won't be in today. I can't float."

Somewhat surprised, the operator gave the message to Mr. Halcrow, who understood it perfectly. He explained that the captain's ship was on a grid and could not be floated off until she next high tide, hence his remark: "I can't float."

It's not the rust on a rusty nail that causes infection. A shiny one can be just as dangerous if it carries germs.

A Fine Institution

Sugar Rationing

Every Class Of People Is Served By The Effect Of The War On Sugar

Public Library

The public library is one of the most institutions in the world. It was the largest consumer of sugar on a per capita basis and Canada was the smallest, according to reports from the libraries of this continent where there is a larger volume of reading now than ever before in history. The libraries of the world have a great opportunity to guide the selection of the reading matter of Canada and the United Kingdom. In 1940 by supplying the good and healthful literature that is historic and true. There is a lot of rubbish printed and read, but there is also a lot of better reading than ever all three countries are dependent upon offshore sources for a substantial portion of their sugar supply, some decline in consumption is to be expected during wartime. Reductions of about 10 per cent. in the United States and Canada, and of approximately 30 per cent. in the United Kingdom have occurred since the pre-war period. Sugar was rationed on an early date in all three countries, and the level of consumption has remained fairly constant since rationing became effective. Relatively small increases in consumption are expected in all three countries in 1944, as compared with 1943. Preliminary estimates for 1944 of food supplies entering into civilian consumption per year head of population place the figures as follows:

Sugars and syrups, United States, 94.9 lb.; Canada, 89.6 lb.; Britain, 75.6 lb. Per war figures were, United States, 106.7 lb.; Canada, 103.3 lb.; Britain, 101.7 lb.

Interesting Test

Penicillin Mist Absorbed Through Lungs Arrests Growth Of Blood Poisoning Bacteria

Penicillin airborne in a fine mist and absorbed into the blood through the lungs may become a common way of applying this amazing healer.

Reporting in the Lancet, a medical publication, bacteriologists Frank Alexander Knott and W. H. Clark, of Guy's hospital, London, told of tests where volunteers sat for 15 minutes in a small closed room into which half a teaspoon of penicillin had been sprayed.

Blood samples showed sufficient concentration to arrest the growth of the bacteria causing blood poisoning.

SMILE AWHILE

"How come you didn't turn out?" demanded the sergeant. " Didn't you hear the bugle blow reveille?"

"Honest sergeant, I'm afraid I'm going to be a flop as a soldier. I don't know one time from another."

"Misssum, is the devil a man?"

"No, dear, he's worse than a man."

"But, nummy, you don't mean he's a man, do you?"

"There are two things bridge has taught women, concentration and self control," says a writer.

Not to mention the art of opening cans and how to buy a meal at the delicatessen counter.

"What sort of a dog is he?"

"An entomologist!"

"But an entomologist is a collector of insects."

"Well, he does that all right."

"Pop, what is a philosopher?"

"A philosopher, son, is a man who is trying to kid himself into believing that he is happy though poor."

Waiter—What about a chop, sir?

Traveler—I never eat chops.

Waiter—In that case, sir, dinner is over.

Sambo—Nigger, you mess wid me and you's gon' to be able to answer a great question."

Rastus—What great question you means?

Sambo—Can the dead speak?

Patient—Doctor, I must tell you that this is my first operation, and I'm nervous.

Doctor—I know just how you feel. This is my first operation, too.

As they propped themselves up against the bar, Thomson remarked:

"I say, old man, when your wife's away, do you have to tell her everything that you do?"

Johnson put his empty glass down and smiled sadly.

"Not at all necessary," he replied. "She tells me that she always gets more reliable accounts from the neighbors."

"I say, you gave that cloak room attendant an enormous tip," said the business man to his friend as they left the restaurant.

"Naturally," said the friend, "look at the splendid new coat he's given me."

Price Control And Rationing Information

Q. Do I have to surrender ration coupons for infant's food?

A. Infant's canned vegetables are unrationed, but the canned fruit or fruit mixed with rice or any other food is rationed. The rate is 20 fluid ounces for one preserves coupon, which gives you four of the small five ounce units. —

Q. Which coupons will we use for preserves and sugar for canning when the present sheet of orange preserves coupons have run out?

A. You will use coupons in rationing five for this purpose. The Board will announce in the usual way when the first coupons on this page will become valid.

Q. I am waiting for my discharge from the Air Force. I have been told that it will be difficult for me to purchase a civilian suit. Does the Government not try to help the servicemen in obtaining clothing?

A. Every demobilized man or woman will be issued a certificate which will entitle him to buy one either ready-to-wear suit or suit tailleur to measure. These certificates will greatly assist the serviceman in buying his suit, but it is not compulsory that the certificates be presented when a purchase is made.

Q. Have any of the ration coupons in book five been declared invalid?

A. All ration coupons in book five are still valid. —

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book to the Board of Trade, or your ceiling prices mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

VALUE OF TOXOID EMPHASIZED

The authentic report from the health division of UNRRA that Nazi armies carried diphtheria with them to all parts of invaded Europe is significant in that it serves to emphasize the value of toxoid and just what can happen when health services, including immunization, are disrupted or neglected. Canadian health authorities have reason for alarm over such a report.

The UNRRA report said Norway, the Netherlands, Belgium, Northern France and Czechoslovakia suffered especially. Only Great Britain and Hungary, where immunization was pushed to the limit, escaped the scourge.

Diasec carriers with the Nazi armies spread diphtheria epidemics wherever they went. The same can happen in Canada, with our own returning troops perhaps being the innocent "carriers".

In an editorial warning against diphtheria, the Toronto Globe and Mail said that "considering that thousands of Canadian soldiers soon will be returning from the Netherlands, Belgium and Northern France, which have especially suffered from the German borne scourge, the value of toxoid is underlined."

The editorial was published during observance of Toronto's 15th annual Toxoid Week, sponsored by the Health League of Canada and the Toronto Department of Public Health. It stated that "careless parents who fail to take advantage of the opportunity to have children treated at no cost to them will be derelict in duty if they fail to guard against a threatened invasion of the disease. They surely ought to be shaken from their indifference by the warning that oceans constitute no effective barrier against a disease of the diphtheria type."

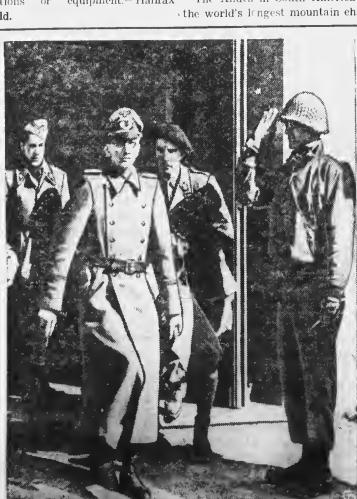

Dr. Gordon Jackson, Toronto's medical officer of health, said in a Toxoid Week message that toxoid is the only substance known to science that proves efficient, lasting and positively harmless in the protection against diphtheria.

USED LONG AGO

Booby traps were used as early as 1630 when baskets of eggs, fruits and other foods, as well as peddler's carts were made to appear abandoned and blew up when enemy soldiers touched them.

Bellevue To Celebrate Victoria Day With Sports, Parade, Crowning Of May Queen And Supporting Show

Feature Crowning May Queen; May-Pole Dance; Juvenile Sports and Parade, Bellevue Band in

in Attendance.

A grand Victoria Day celebration will be run by the Bellevue Lions club in Bellevue on May 24th.

This club has just recently received its Charter and this is its first public undertaking of any size. They have an active committee at work and honestly intend to give all the good people of this district a full day of entertainment and at the same time, they hope, without charging you too much, to make a good profit of the day.

The total net proceeds will be placed in a separate fund and together with other money which they intend to raise in the near future, will be used by the Lions to build a much needed recreation hall in Bellevue.

The program for the day will be as follows:

10 a.m., Juvenile sports.
1:30 p.m., Parade for the May Queen and attendants together with costumes, floats, decorated cars, bicycles, etc.

2:30 p.m., The Big Event of the day, when the main show will be put on in the Bellevue arena. Some of the important features of the show will be the crowning of the May Queen, a May-pole dance, songs by the Blairmore Male Voice Party, Miss A. Drozdick and her violin, Ukrainian folk dances, Maytime skit, and selections by the Bellevue Band.

Please, for your own sake, do not miss this great show.

6:30 p.m., Softball game, Bellevue Ladies Club versus Hillcrest Ladies Club.

9 p.m., Dance in the IOOF hall. With the well known Arcadians orchestra in attendance and the Lions in control you are guaranteed a real good time.

As mentioned above, the Lions intend to make a profit on the day, but at the same time they also intend to give you more than value for your money.

The only admission that you need to pay to the feature attraction (Big Show) is to buy one or more tickets on the Money Spread and if you buy these tickets soon enough then you will also give votes to your choice for May Queen. The contestants for May Queen are: Mary Petrin, Mary Adamec, Jean Fisher, Mary Stefanie and Clara White.

The voting for the May Queen will close at 6 p.m. Monday, May 21, and only ticket stubs that are in the hands of the Lion president, A. G. Hayson, at that time will be counted.

Tickets on the Money Spread will continue to be sold right up until the time of the draw. The draw will be made at the dance at midnight. The price of admission to the dance will be 50¢ per person.

Admission to the juvenile sports will be a 25¢ tag and this same tag will also admit the holder to the softball game in the evening.

WIN A TOURISTS' LODGE

\$13,000

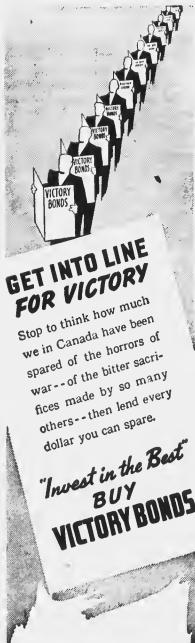

TOURISTS' LODGE, a 1942 CHEVROLET SEDAN, 73 other prizes, 75 prizes totalling \$20,000 or the equivalent in Victory Bonds. Mail this "ad" with ONE DOLLAR subscription to "The Canadian Rockies Memorial Recreational Society," 359 Victoria St., Kamloops, B. C.

Proceeds to be used to erect a Recreational Centre for our returning Veterans and the citizens of this district. Date of drawing to be announced in the press. Don't delay. Act now! [80-45.]

Coleman

COLEMAN IS PROUD OF THE MEN FROM THIS COMMUNITY ON ACTIVE SERVICE

Wherever a group of Coleman people gather these days the chief topic of conversation is the latest news of local boys on active service. It's the doings of our own men that brings the war home to us . . . that makes us realize that this is our war. We read their letters and follow their doings with keen interest. We are proud of them.

Let's Give Them Reason To Be Proud Of Coleman

Wonder if men from this community boast about Coleman? We hope they do. We hope they're proud of their home town; proud of the part that we, here in Coleman are playing in the home front war effort.

Let's make sure about this. Let's put our objective for the 8th Victory Loan over in a way that will make this community talked about.

Let's make Coleman's Victory Bond sales good news for the Coleman men over there.

LET'S ALL BUY MORE VICTORY BONDS THIS TIME

First of all I want to thank the Legion for the cigarettes (600) I received yesterday and that they're coming in swell and that I've only missed about 1 parcel through enemy action since I came overseas, so that's a perfect record for 3½ years. I would also like to thank the Jankulak family for the Sweet Caps which arrived a few days ago.

I must say I spent a lovely leave in England with my wife and son after a year and a half in Italy and was sure pleased and proud to see my son for the first time. He is a year and a half old and sure a big fella, too. While home on leave in England I met Challice Eycott in London and he was on leave, too.

My wife and son are awaiting transport to Coleman now, but we have no idea how long it will take to get them there as there's a lot of red tape and channels to go through.

I must say I've really done some travelling since I've been in the Army. I've been in every country nearly that the Canadians have been in. I've been in England, Scotland, Wales, Sicily, Italy, France, Holland, Belgium and Germany, and my choice out of the works is Canada, ho-ho, yes sir! There's no place like it and at the moment the news says the Russians are fighting in Berlin, so it might not be very long before it's over. Of course, right now my biggest worry is how long is it going to take me to get home after it's over, as it's in the bag now.

I met Bill Russell here in Holland just before I went on leave and we had quite a little chat. I'm keeping my eyes open for some of the Colemanites that I haven't seen for a few years, but so far no luck.

I must say it gives me real pleasure in seeing Germany all battered up after what he gave us in England and it's a real treat to fight and ruin something of theirs instead of the countries we've fought over. I will truthfully say these countries here have had a picnic as far as the ruins go compared to that of Italy and lots of the places here are just like "civic street" at home and you'd never know a war had passed over them. In Belgium the stores had nearly anything to sell from candy galore and up and more than England ever had during the war rationing. Where Italy on the other hand had nil and the majority of Italy is smashed to the ground and every yard fought for and seeing it is the only way of believing.

I often think how nice it's going to be to sit in the Legion and "slugg a pint" and talk over old times. I'll bet there'll be some swell arguments, eh?

We're very busy at the time and there's lots I'd like to tell you, but "security" stops it, so will tell you all better when we get back to Canada again.

There'll be a lot of the gang going back on the point system soon and in a couple of months time I'll be eligible, too, and boy, I'm just

Mr. Hon. W. L. MACKENZIE KING, Prime Minister

YOUR Liberal Government under Mackenzie King has taken practical steps to see that every Canadian after the war shall have a wide-open chance to make a real success of his life. It can be done by giving everybody the opportunity to get ahead faster and go further.

Isn't that what you want - a chance to make your own way in your own way?

Here are definite, practical steps which the Liberal Government has taken (not just talked about, but *taken*) to make this Canada a better place to work in and bring up your children.

You will have to decide whether you want the men who devised these measures to carry them through, or whether you wish to entrust your own and your family's future to others.

1 Reconstruction

Plans for jobs for 900,000 more workers than in 1939; and 60,000 more each year as the population grows. Every kind of enterprise will be encouraged. The Liberal Government has already set up the machinery: the Department of Reconstruction.

2 Foreign Trade

Liberal objective: Sixty percent increase in value over Canada's pre-war export trade. This means thousands of jobs, and is based on the number of jobs created by Canada's normal export trade.

3 Credit for Enterprise

The Liberal Government set up the Industrial Development Bank to provide money at low interest for long terms to help enterprises in Canada to develop new business. Another step towards creating full employment.

4 Exports Encouraged

War-torn countries will want to buy tremendous quantities of Canadian goods. To facilitate this, the Liberal Government has seen to the Export Credit Insurance Act to do two things: (1) to insure Canadian exporters against loss, and (2) to make loans to foreign governments under contract to Canadian exporters.

5 Farm Improvement Loans

Your Liberal Government has made low interest loans available to farmers to finance their work and make improvements.

6 Guaranteed Markets

To provide farmers with a better wartime income, the Liberal Government made contracts for definite quantities of important products at agreed prices—nearly bacon, eggs, cheese and beef. These contracts have worked out so well the Liberal Government extended many for longer periods.

What you have done in war—you can do in peace. You can do your part by supporting the Liberal Candidate in your constituency.

Emile Vaillancourt, Canada's first ambassador to Cuba, arrived recently in Havana by plane from Ottawa.

Britain's 7,736 children killed in German air raids will have their own war memorial—a new children's ward in London's St. Thomas hospital.

In recognition of his services to the nation, the city council of Cardiff, Wales, decided to confer the freedom of the city on Prime Minister Churchill.

The Overseas League Tobacco Fund, organized at the beginning of the war and now Dominion wide, has sent 225,000,000 cigarettes overseas to Canadian forces.

Gen. Chen Cheng, Chinese war minister, estimated Chinese casualties from the outbreak of war with Japan in July, 1937, until March, 1945, had reached 3,100,000.

Joseph Mallender, famous gardener whose bulbs and plants were sent to all parts of the world, died in Retford, Eng., a few days before his 100th birthday.

When bomb-disposal crews tackled a captured airfield in Belgium they found 8,000 mines of all types. All were removed without a single casualty. It has been announced.

Dr. Wendell M. Stanley of Rockefeller Institute and Princeton University has developed a new influenza vaccine believed to be ten times as effective as a previous preventive for the disease.

A deed recorded before a deputy U.S. consul in Liverpool, England, 40 years ago has been filed in the registry of deeds at Portland, Me. It transfers a plot of land on Long Island to a Portland man.

Canadian Wheat

Survey Of Wheat Stocks Held On
Canadian Farms

According to the annual March survey of grain held on farms, the stocks of Canadian wheat in all North American positions on March 31, 1945, were 502,977,991 bushels, of which 24,076,406 bushels were held in bond in the United States representing a decline of 42.6 million bushels from March 31, 1944. The bulk of the Canadian wheat stocks is held in country elevators and on farms, with 180 million bushels or 38 per cent of the total, in country elevators and 154 million bushels, or 32 per cent, on farms. A year ago there were 195 million bushels of wheat in country elevators and an estimated 210 million bushels on farms. Farm stocks have thus declined by 56 million bushels despite a much higher crop in 1944 than in 1943 and the reduced use of wheat for live stock feed. More generous delivery quotas in the Prairie Provinces have permitted farmers to move more grain into commercial channels.

Farm stocks of wheat in the Prairie Provinces accounted for 149 million bushels of the total 354 million bushels held on farms. The quantity of wheat on farms in Manitoba is estimated at 34 million bushels; in Saskatchewan at 90 million bushels, and in Alberta at 45 million bushels. From this grain will be taken seed for the 1945 crop and feed for live stock and poultry during the remaining third of the crop year, leaving the balance available for delivery or carry-over at July 31.

LIFE'S LIKE THAT

By Fred Neher

"I hope you don't mind, Mrs. Burns, but Archie won't allow anybody to walk on his lawn with high-heeled shoes."

TORTURER EXECUTED — Jospeh Kramer, the S.S. Storm Group leader, who was the commandant of the Bergen death camp, is shown under guard with chains on his ankles. British troops found 60,000 dead, dying and starving people, victims of unbelievable tortures by their Nazi captors. Kramer has been tried and executed according to report.

Left Fortune Behind

Germans Overlooked \$100,000 When
They Fleed From Holland Town

A notary of Nijnen, Holland, found that his safe was anything but empty when he recently returned to his home after the Germans had left. From looting it, the Germans had left him a tidy sum in tool.

Forfuld about touching the safe lest it might have been booby-trapped he asked some Canadian engineers to check it and open it for him. They did so and found inside 95,000 Dutch gilders, or the equivalent of nearly \$400,000, left behind by the Germans.

The money has been turned over to the Dutch authorities, but the notary may be rewarded with a percentage cut.

DELICACY FROM SIBERIA

Swans from Siberia are being sold in London as food. To escape the Russian winter they fly to Ireland where they are shot, sold to Britain and finally appear as a delicacy in West End restaurants. The birds are about the size of a turkey when plucked.

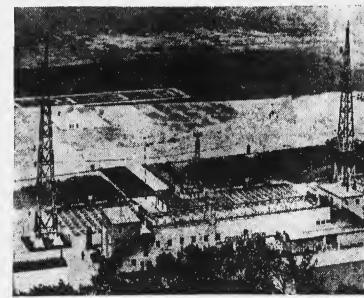

Forty-eight per cent of all patents submitted for approval by the U.S. patent office in a recent 12 year period were turned down.

Receives Many Letters Just Four Classes

People From All Over World Have

Written General Eisenhower

Few

motion-picture stars ever received such a torrent of letters and gifts as does the supreme commander of the Allied Expeditionary Force.

People from all parts of the world activities, Juniors Chambers have undertaken many projects of value to their respective communities, such as: Mosquito Control; Get Out The Vote; Anti-V.D.; Boys' and Girls' Work; Traffic Safety and City Beautification.

With over 6,000 of our members in the Armed Forces one of the urgent tasks to which we have set ourselves this year is the rehabilitation of members of the services. We feel that as good Canadians must feel, that we have a personal responsibility to the men who are serving overseas.

On the front line there is hardly a phase of the war effort that has not been assisted by members of the Juniors Chamber. Ten thousand members from coast to coast are working through combined efforts to help the war effort by active participation in Blood Donor, War Services, Victory Loan, Community Chest, Red Cross and many other campaigns.

The Saskatchewan Junior Chamber is an organization composed of 14 affiliate groups in the province comprising a membership of over 1,000 young men between the ages of 20 and 40. It is known as Region 3 of the Junior Chamber of Commerce of Canada, and this year is represented on the National Executive by a Vice-President and a National Director.

Realizing that as the fathers of the coming generation they have a vital stake in the community and that to them will be given the responsibility of implementing a successful peacetime economy, the Junior Chamber of Commerce through leadership training aspires to fulfill its obligation to our Country and Community. How we can fulfill this obligation will be the theme of our discussions this year when we meet at our tenth annual provincial convention at Regina on May 12 and 13.

Forfuld about touching the safe lest it might have been booby-trapped he asked some Canadian engineers to check it and open it for him. They did so and found inside 95,000 Dutch gilders, or the equivalent of nearly \$400,000, left behind by the Germans.

Realizing that as the fathers of the coming generation they have a vital stake in the community and that to them will be given the responsibility of implementing a successful peacetime economy, the Junior Chamber of Commerce through leadership training aspires to fulfill its obligation to our Country and Community. How we can fulfill this obligation will be the theme of our discussions this year when we meet at our tenth annual provincial convention at Regina on May 12 and 13.

Forfuld about touching the safe lest it might have been booby-trapped he asked some Canadian engineers to check it and open it for him. They did so and found inside 95,000 Dutch gilders, or the equivalent of nearly \$400,000, left behind by the Germans.

The money has been turned over to the Dutch authorities, but the notary may be rewarded with a percentage cut.

Young men between the ages of 20 and 40. It is known as Region 3 of the Junior Chamber of Commerce of Canada, and this year is represented on the National Executive by a Vice-President and a National Director.

WRAPPED AIRTIGHT TO PROTECT POTENCY—ALWAYS DEPENDABLE!

OUR COMPLETE SHORT STORY—
BY JEAN CAMERON

NO INTEREST
So you've been visiting the little pigs again?" asked Owen Roberts, sitting up and removing his hat from before his face.

"Oink," said the baby. "Oink, oink."

"Go in the house and say that to your grandmother," warned Owen, "and she'll probably serve you up for dinner with an apple in your mouth."

Marta who had come out with a jar of jelly and a plate of fresh buns hot from the oven, gave him a hard poke. "Stop frightening your young est," she commanded. "I'm glad you're awake. I've just heard the full story of Jane's Uncle Will, and now I want your advice."

Owen was down his face covered before she finished speaking. "This is my vacation," he said drowsily, vaguely putting out a hand for a bun. "I don't want to hear about inheritances and legacies. I don't want to solve crimes or legal problems. I've no interest in Uncle Will."

"Not Uncle Will; her uncle's will," corrected Martha. "That's what he said."

"Who?"

"Mr. Blake said he was putting his money in a bank that paid no interest. Now they can't find it, and you know how hard up Jane's family is. She's postponed her wedding twice because her teaching salary is practically all they have to live on. He left a good estate, too, if it could be located."

Owen sat up. "That's a shame. Jane seems like a nice girl."

"You mean she tickled your vanity by praising the children outrageously. Owen, honey, with all you know about banks—"

"That is, I have prosecuted a couple of bank robbers in the course of my checkered career. Martha, you haven't given me a thing to go on. Didn't the old duffer leave a bank book?"

"Well, the truth is he was rather queer during the latter part of his life. He lost quite a lot of money ten years ago, and ever after he did plenty of talking about how he was outwitting the bankers. He even opened accounts under different

names. They've found two of those, but they were awfully tiny. And then he kept saying he'd selected a bank that was safe enough because it promised no interest, and that was the best way to hoard for food like the squirrels, whereas men hoard for gain and lose everything, and that it was unnatural to expect money to grow, and so on."

Owen swallowed an entire bun. "It sounds to me," he ejaculated with some difficulty, "as though he had a savings deposit box instead of an account."

"That's clever of you. But they've thought of that already, and they can't locate any box of his in the town near by. And Uncle never travelled. He was content with his farm and his books."

"We ought to vote for a law requiring photographs on all bank books and deposit boxes," Owen grumbled. "Think how useful that would be. And he left no papers, will anything?"

"Just a letter for Jane's father. It said exactly what I told you he'd been advising people for a long while: That he dealt with a bank that paid no interest no matter how much there was and to remember the squirrels and not to expect unnatural gains. They thought it was rather incoherent, and yet except for his hatred of banks and his fear of thieves Uncle Blake was a remarkably clever businessman."

"No interest bank time time... I know a bank where the wild thyme blows... Martha..."

"What on earth are you jumping about?"

"Bank bank woman! Thyme time thyme is an aromatic herb. Isn't there a great patch in your mother's garden here?" What about the Blake farm? And does the river run through Mr. Blake's property?"

"Thyme? Why, of course they grow some. And you know perfectly well the river is there. You saw it yesterday. Owen, what ARE you driving at? You don't mean...

"So Jane is a teacher eh? She ought to get married. What would a nun who hated banks do one who was afraid to write too plainly for fear the letter would fall into the wrong hands?" Squirrels, squirrels, bound in hollow trees, and there certainly wouldn't be any interested

Mr. Blake, phone Jane, ask her if there's any possible hiding place a cave or some hollow trees in the river bank near the thyme patch. Ask her...

He lay back resignedly, for Martha had already disappeared into the bath house.

She was back in a moment, pink with excitement. "Owen, that must be it! Why, there's even a hollow tree that Jane and her brothers used to use for a post office when they were little. And her father is just funny at himself. He knows that Shakespeare quotation. He says it's so plain and simple he can't understand why they didn't see it right away. Oh, take that smirk off your face! I'm going to stick beside the phone till Jane calls back."

Owen sighed with pleasure and threw an arm over his face. "And I'm going to stay right here and vegetate," he murmured. "Wake me Saturday." He sighed again, rolled over, then stiffened at the sound of loud snorts. "Martha," he shouted, leaping up. "Martha!" Michael's let all the baby pigs out and he's sitting in a puddle."

SELECTED RECIPES

Once a week, for a real change of scenery, why not introduce a foreign dish into your menus? For an oriental touch serve chop suey. It is a meal in itself, needs only a salad to complete the picture.

CHOP SUEY MODERNE

2 cups boiling water
3 bouillon cubes
3 tablespoons soy sauce
1 pound diced fresh pork
1 cup flour
1 1/2 cup mushrooms (1 oz. can)
1/2 cup sliced onion
3 cups celery strips
2 tablespoons butter
4 cups oven-pepper rice cereal
Pour boiling water over bouillon cubes and soy sauce to make stock. Brown mushrooms, onions and celery in a flat pan. Add mushrooms and onion to juice of onion and celery. Cover and cook slowly about 30 minutes, stirring occasionally to prevent sticking. Add butter and stir over oven-pepper rice cereal hot, stirring frequently. Serve Chop Suey around a mound of hot buttered oven-pepper rice. Yield: 5 one-cup servings.

*Mushrooms may be omitted.

WISDOM OF SAVING

Ten years ago a housewife in Kitchener, Ont., started putting aside the 50 pieces which came into her possession. The other day she bought a house and made a down-payment of \$700, all of it in 50 pieces which filled three lard walls weighed 45 pounds, and surprised even her husband.

Former assistant chief of Hitler Youth movement in Cologne, Joseph Mengele is seen as he was sentenced to seven years in prison. He was also assessed various fines by an Allied military government tribunal for destroying the files of the Hitler Jugend and giving false information regarding existence of other files. Therefore many who were not in the know were startled when Oliver Lyttelton, Minister of Production, in a "now it can be told" speech recently disclosed that Britain in those dark days had only one drop-hammer capable of forging the crankshaft of a Spitfire engine. A drop hammer is used for stamping out metal to shape while cold.

Value Of Books

Many People Find Reading A Shield Against Most Ills

Books are life-savers and mind-savers for men and women everywhere in the world in these bumpy wartime days. They are all that poets and philosophers have said of them. They are "a shield against the ills of life, however things might go amiss." They are "the surest relief in the most melancholy moments." They are "the same firm friends these refreshment rich" these "steal, soothing companions in solitude." —New York Times.

Misses' Two-Piece

BY ANNE ADAMS

Cleverest idea yet! Blouse is just one flat piece! Pull it over your head, wrap it to the front, and tie in a perky bow at waist. Pattern 4614 has separate dirndl skirt.

Pattern 4614 is made in misses' sizes 12, 14, 16, 18 and 20. Size 16.

Send twenty cents (20c) in coins (stamps cannot be accepted) to this pattern. Write plainly. Name, address, size and style. Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Annex, 175 McDermot Ave. E., Winnipeg, Man.

"Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

QUOTE A PUZZLE

More than 480,000,000 farthings—worth about a half cent each in Canadian money—have been issued since they were introduced in 1860 but there are very few in circulation now. The Royal mint is puzzled.

The first ironclad war vessel was built by Admiral Yi Sun Sin of Korea in 1594.

The Big Moment

Comes When Buy Makes First Fishing Trip In Spring

Small boys grow to men and gather about themselves fishing tackle and equipment which is their pride and joy. They brag about it and show it off, in and out of season, and add to it, bit by bit. Then they go out to fine big fishing trips which cost them money and do they a lot of fishing, etc., and come home and tell about it. They also catch fish—big fish—middle-sized fish and the fish that got away. They catch so many fish that the family can't eat them all and they give them away to their friends. And they are fishermen until their dying day. But we doubt that ever, in all the annals of the habitual fishermen, is there a day that will compare with the first warm day in spring when he peeled a lowland wad and tied a string on the end; when he spent a nickel for hooks and sinker and dug a handful of worms from his mother's flower bed and set out for "the crick".

When War Started

Britain Had Only One Drop-Hammer For Airplane Work

British members of Parliament, like the rest of the nation and the world knew, of course, that Britain at the outbreak of war was alarmingly lacking in land armaments and that her great steel works were without ready means of producing them in mass.

They had taken comfort as well as pride in the heroism of the small but superbly efficient R.A.F. whose Spitfires saved the country by blasting the Luftwaffe from the skies over England in its first invasion attempt.

Therefore many who were not in the know were startled when Oliver Lyttelton, Minister of Production, in a "now it can be told" speech recently disclosed that Britain in those dark days had only one drop-hammer capable of forging the crankshaft of a Spitfire engine. A drop hammer is used for stamping out metal to shape while cold.

Where Garden Is Small

Where space is very limited one can economize by planting peas in a double row about 6 to 10 inches apart. As the vine develops the rows support each other. They are planted just as early as possible, spaced as far apart as possible, about fifty days after later vegetables like beans, carrots, parsnips or turnips can be planted close beside them, and later when the peas are finished the vines are pulled up to give the other vegetables more room.

To save space with corn, one can interplant with other vegetables like cucumbers, melons or squash or pumpkins. A seed or two of the latter is planted in the hole.

Tomatoes are a special claim in the small garden because they are so much nicer fresh and it is handy to have these useful vegetables or fruits right at the door. Tomatoes should be staked and especially so in small gardens. If you have too many to stake, use a tall wooden post, stake one side each plant. Nip off all side-shoots as the plant grows and tie main stem loosely every foot or so to the stake. Staked tomatoes ripen earlier and are more cleaner. They can also be grown in 18 inches apart, where unstaked vines should have three feet for good results.

Protection

In a few hours insects or disease can destroy the work of weeks, and so experts advise all gardeners to be on the lookout for pest damage of any kind and to keep some defensive material on hand. The best protection, of course, is that which is well cultivated free of weeds and growing fast. Cultivation alone will do wonders and in poor soil it will not do any harm to add a little superphosphate just to speed things along. The healthy growth resulting will withstand most attacks, but not always.

Sometimes there is a combination of unusually unfavorable weather and a disease that breaks out. The blight fungus disease, the kind that ruins hollyhocks and mildews roses and makes black spots on beans. Fine powdered sulphur will check the first two but is not advisable for the blight.

The best guard against that healthy seed in the first place, then out of the bean patch when the vines are damp.

Healthy seed will also help to guard against rot in potatoes and other vegetables and some special preparations previous to planting will also help. For most bugs a good commercial spray or dust easily applied with a spray gun or shaken on from a porous bag will soon get them. The most important thing, agree those that know, is to get the counter measures started at the first sign of trouble.

MANY STAR SYSTEMS

There are approximately 75,000,000 star systems similar to the Milky Way within the range of modern telescopes, according to an estimate of a prominent astronomer.

The most dangerous temperature for the formation of ice on aircraft are those between 20 and 34 degrees Fahrenheit.

PROMOTED—

Pte. Mette Englund, Bradwell, Sask., has recently been promoted to the rank of lance corporal in the C.W.C. A.C. Enlisting in March, 1944, L-Cpl. Englund took basic training at Kitchener, Ont., and is now doing stenographic work at National Defence Headquarters in Ottawa. The daughter of Mr. and Mrs. John Englund, Bradwell, she was employed in an aircraft factory prior to her enlistment.

GRADUATE—

Several Western girls were included in the group of CWACs graduating from the latest clerks' course held at the C.W.C. Basic Training Centre Saskatchewan in Saskatoon and had in Kitchener, Ont. Included among completed one year in laboratory work there with a view to specializing in that field. In the army she was fortunate enough to be posted to that work and given the opportunity to continue her studies. Last year she received a three-month laboratory course at the University of Toronto and later became the first Saskatchewan CWAC to attend the C.W.C. Basic Training Centre in Saskatoon and had in Kitchener, Ont. Included among completed one year in laboratory work there with a view to specializing in that field. In the army she was fortunate enough to be posted to that work and given the opportunity to continue her studies. FAMILY ALLOWANCES

AND INCOME TAX

THE following announcement will help to clarify the relationship between Family Allowances and Income Tax credits for dependent children. Family Allowances are payable from July 1, 1945, and the registration of children is now taking place.

The Family Allowances Act was designed to help equalize opportunities for all children, and when the Act was passed, Parliament approved the principle that there should be no duplication of benefits by way of Family Allowances and Income Tax credits for the same child. An amendment to the Income War Tax Act will be made to deal with this duplication. In the meantime, however, the Govern-

ment proposes, for the last six months of 1945 during which Family Allowances are payable, to remove duplication by adjusting the income tax credits received for children.

It is natural that parents in the low income groups will be expected to receive maximum benefits from Family Allowances. Partial benefits will be received, however, by parents with incomes up to \$3,000.

The table below shows the effect of the adjustments which the Government has decided to make. For convenience and simplicity the benefits received by each income group are shown as a per cent of the Family Allowances received. The table shows:

TABLE SHOWING EFFECT OF ADJUSTMENT FOR 1945

AMOUNT OF TAXABLE INCOME	Percent by which taxpayers will benefit from Family Allowances in addition to present income tax credits, for 1945.
Over \$1200 but not over 1400	100%
" 1400 " " 1600	90% of
" 1600 " " 1800	80% actual
" 1800 " " 2000	70% Family
" 2000 " " 2200	60% Allowances
" 2200 " " 2400	50% received
" 2400 " " 2600	40% in the
" 2600 " " 2800	30% year
" 2800 " " 3000	20% 1945.
" 3000 " " 3200	10% 1945.
" 3200 " " 3400	0%

NOTE—This table applies to married persons and others having the status of married persons for income tax purposes. For the relatively small number of single persons supported by parents and others, the same status for income tax purposes, and for members of the Armed Forces, special tables can be obtained from the Regional Director of Family Allowances in each provincial capital.

NOTE THESE TWO EXAMPLES

1. Family with two children, ages 6 and 8, with total income during 1945 of \$1200.

TOTAL FOR SIX MONTHS OF 1945	
First Child	\$36.00
Second Child	\$36.00

As this family does not benefit by way of income tax credits, it receives and keeps the full amount as stated above.

2. Family with two children, ages 6 and 8, with total income during 1945 of \$1950.

TOTAL FOR SIX MONTHS OF 1945	
First Child	\$36.00
Second Child	\$36.00
Amount returnable, being loss of income tax credits	\$72.00

Amount retained (60%, see
table) \$43.20

REGISTER NOW!

If you intend to apply for Family Allowances but have not already done so, please complete and mail Family Allowances Registration Form. Copies of form may be obtained at the nearest post office.
